

# Construction Work Zone Signs

**Delivery:** Prompt delivery of work zone signs to meet our customers' needs.  
*Give us a try... you will like our service!*

**Prismatic Reflective Sheetings:** 3924S (Fluorescent Orange Diamond Grade),  
 3934 (High Intensity Prismatic), and 4084 (DG3).

**Substrates:** We stock 3 substrates for timely delivery of your order:

**4MM or 10MM Corrugated Plastic** is the lightest weight sign material available. It is perfect for signs mounted on Type III barricades.

**ACM Material** is a terrific alternative for MDO plywood or roll-up signs and can even be used for signs mounted on Type III barricades.

**.080 Aluminum:** the most durable substrate available.
